Belleville Area Lions Road

At Belleville Area District Library

Parking available at Belleville First United Methodist Church on Charles Street

KidSight, a Lions Club community service program provides a simple, noninvasive and cost-free vision screening test performed on young children. It requires no medication or preparation and is PAINLESS. It does require parental permission, we also have screen adults up to 99yrs old. KidSight screens for the following: Hyperopia – “Far-sightedness” is the difficulty seeing objects that are near. Untreated this can contribute to “crossing of the eyes” but can be corrected with glasses. Myopia – “Near-sightedness” is when the eyes focus incorrectly, making distant objects appear blurred. It can be treated with glasses. Astigmatism- A condition in which the cornea has an abnormal curve causing out-of-focus vision. Anisometropia – This condition can adversely affect the development of binocular vision in infants and children. The brain will often suppress the vision of the blurrier eye in a condition called Amblyopia or “lazy eye.” Strabismus – Eyes are not directed to an object simultaneously. Sometimes the eyes deviate outward and sometimes inward.

Newborn **hearing screening** identifies most **children** born with a **hearing** loss. But in some cases, the **hearing** loss is caused by things like infections, trauma, and damaging noise levels, and the problem doesn't emerge until later in **childhood**. ... So it's important to have **kids' hearing** checked regularly as they grow.

The Lions Hearing Center, founded in 2000, is a non-profit that serves southeastern Michigan by helping the deaf and hard of hearing. We provide hearing screening services to thousands of children and adults each year, provide affordable hearing aids to those in need, and help deaf children and their families find resources and support.

Michigan Mason Child ID Program

Michigan Masons believe that every child deserves to be safe. While countless children fall victim to predators each year, there are steps that parents can take to help prevent this horrific tragedy. The Michigan Masons have stepped up to help with one of the most comprehensive child recovery and identification programs in the nation.

The Michigan Child ID Program provides parents and guardians with a "Child ID Kit" that contains all the vital information necessary to expedite law enforcement efforts to locate a missing child. The program also helps to educate families about abduction prevention and safety.

The kit includes a photo ID card, color photo, digital fingerprints, recorded interview to capture speech characteristics, dental impressions, DNA, and a complete Amber Alert profile.
